Chamber Secretary Learns Of Plans Set Without Him

(Continued from Page 1-A)

goodwill, and to collect delinquent dues;

(3) Call on new members of the chamber, and new business men and industrialists and to advise existing members by bulletin of the new enterprises;

(4) Contact sources of information in Los Angeles at least once a week to obtain information on prospective new industries and to report such information to the members of the board;

(5) Investigate the status of various specifically named acreages of land with a view of their possible development for industrial and residential use;

(6) Ascertain the exact sta-

tus of ownership of the right-of-way of the Santa Fe railroad on Madrid, Madrona and Arlington avenues, as well as any other rights-of-way held by that railroad;

(7) Obtain full detailed information concerning the route heretofore surveyed and at one time proposed by the County Engineer's office for connecting 101 highway with Crenshaw boulevard, and it was further recommended that action be taken to get favorable action by the Planning Commission to the City Council to this end;

(8) Make available to all real estate brokers any prospective small industries which might be available for location in this area, the list to be submitted to the Real Estate Board for dissemination.

Other matters discussed at length by the chamber board and submitted to the secretary for further study included: MUNICIPAL AIRPORT... Ascertain from the city and mayor a report regarding the status of the municipal airport and obtain a report in writing concerning what is proposed toward its future development. It was recommended that the City Council be informed by the secretary that the chamber favors the city taking immediate steps to advertise for sale the various franchises for development of the airport;

OIL SUMPS... Request the City Council to authorize the fire chief to investigate and report all oil sumps in the Torrance oilfield with a view to eliminating the fire and death hazard involved;

DOWNTOWN PARKING... Sam Levy, Paul Diamond and Carney Emmett were appointed as a committee to investigate and report concerning a permanent solution of the downtown parking problem and to determine whether or not a long-term lease might be obtained from the city for its property at El Prado and Cravens for this purpose;

REZONING... Notify the City Council and City Planning Commission that the chamber favors the rezoning of land owned by the Santa Fe Land and Improvement Company west of Madrid avenue and lying north of Torrance boulevard to a depth of 660 feet for multiple family dwellings;

POST OFFICE HOURS... The secretary was instructed to write the U. S. Postmaster General at Washington and Congressman Cecil R. King, requesting that the Torrance post office lobby be kept open at all times for box-holders and for posting mail;

CRENSHAW 190TH ST... Advise the City Council and City Planning Commission that the chamber recommends immediate action to remove the dangerous

Little Girl Plus Big Drum Equals Big Noise

Cute little Susan Stamps, three-year-old daughter of Mr. and Mrs. Lee Stamps, 804 Acacia avenue, gets a chance to beat the drum of Billy Letzt, bass drummer of the Torrance Area Youth Band, to arouse interest in the band's campaign to raise funds to buy uniforms and instruments for the 50-piece organization.

Young Letzt, son of Mr. and Mrs. William Letzt, 1920 Gramercy avenue, is shown wearing a jacket to one of the new uniforms planned for the band.

The band, under the sponsorship of Torrance merchants, will present a free concert and dance on May 15. They will also march in a huge parade on the same day that will feature bands from other units, riding clubs and floats.

A 1948 Chevrolet sedan will be awarded during the night of the Second Annual Concert.

Write to the City Engineer commending him for his action in straightening out the house numbers in Torrance and recommending that action be taken to place appropriate street signs on all streets in Torrance and directions to Redondo Beach, Lomita, San Pedro, Long Beach and Harbor City;

EAST ROAD... Report concerning the opening and paving of East Road;

BUS DEPARTMENT... Obtain a report from the council's bus committee about the operation of the Bus Department of the city and particularly to ascertain whether all routes are being operated at a profit and to obtain a recommendation from the committee concerning its profits and losses, setting forth in detail the amount of reserves and depreciation taken;

BULLETIN... It was also suggested that a Chamber Bulletin should be issued at least once a month and mailed to all members, setting forth the action on the part of directors, activities of the chamber and propositions under consideration by the board and requesting suggestions and comments from the members. Other data suggested for the bulletin included: dates of various tax payment deadlines; budget proposals of the City and School District; building permits; names and addresses of new business licenses and various other information of timely interest to business interests.

At the executive board meeting which was not attended by Secretary Walker were, besides President Rippy, Directors Chas. V. Jones, H. Tillotson, Robert Haggard, Reed Parkin, Dean L. Sears, Robert I. Plomert Jr. and Grover C. Whyte.

Mr. and Mrs. Walker will leave soon for an extended trip to Alaska. Walker's agreement with the chamber calls for a two-months' leave of absence each year without pay.

BEATING THE DRUM FOR THE CAUSE...
